DO NOT RELEASE TO ANYONE OUTSIDE OF EPA. THIS REPORT IS DRAFT AND UNDER EPA REVIEW.

Team,

We need to schedule a meeting to discuss the findings of this report. In particular, we need to discuss the cover page that EPA will draft that will go with this technical report. The EPA cover page will inform the RPs what corrective actions, if any, we are requiring them to make. Of course this language will need to be vetted through legal.

Valmichael,

Here is the long awaited report. I regret that it had gotten caught up in the impacts of furloughs.

Let me know if you have any changes required or comments that I will need to address.

Thanks,

Paul

Kathleen - I just talked with Paul Schroeder at the USACE Engineer Research & Development Center, and he wanted me to let you know he has been working on the San Jacinto project. He has had a backlog of priorities, but he plans to have the completed project information for Valmichael Leos in the next 2-3 days.

We also discussed the Region 6 need for the project work to be complete for a public meeting scheduled in two weeks.

The RPM, Valmichael Leos has not received the final product and has been trying to get in touch with Paul for over a month regarding WAF # 2006/2013-COE490-06ZQ01-RS010. Valmichael received the draft report from Paul in April which he discussed with Paul and they both agreed that the technical analysis report would be finalized by July 8, 2013. The most recent monthly progress report dated 7/12/2013 was for work performed June 1-30, 2013. Please let us know if Paul is still our contact for this project or if it has been assigned to someone else. Thank you.

Paul,

I really need you to call me or email the draft final report for San Jacinto. I haven't heard from you in over a month now. Are you still working on this project? Please advise.

Valmichael - Any update on EPA's progress on the reassessment report? We would really like to get any feedback that we may need to consider for the FS that is due to EPA on August 30th as soon as

possible.

Thanks,

David

David,

I'm working on getting a Final DRAFT report from the USACE this week. I'll keep you posted when I'm ready to set up that conference call to discuss the results of the report.

-Val

Valmichael - I trust your summer is going well. I wanted to check in and see if we should expect any

feedback from EPA on the reassessment activities that you completed with USACE, or if you felt like you needed any additional information from us.

Let me know how things are going when you get a chance.

Thanks,

David
